### Masonic Trivia and Education

The earliest known appearance of the letter "G" inside the interlaced square and compasses is on a photo of an etching in "Freemasonry A Journey Through Ritual and Symbol" by Kirk MacNulty. The date shown on the etching is "5776" which we Masons know to be 1776 in standard dating form. Another very early appearance is on a cast bronze plate made by Paul Revere in 1796. By the year 1800 the combined symbol had appeared in England on embroidered aprons and upon a "Master's Tracing Board. In the language of some countries, the letter "G" does not stand for either "God" or "Geometry"

so it is not a part of their basic symbol of Freemasonry. Source: "Fraternal Review", Southern California Research Lodge F&AM.
